

Enjoy life and take on new challenges

松井 順子 准教授

■ 自己紹介

Hello. My name is June-ko. I'm in charge of Interpreting, Phonetics, and Discussion and Debate. Interpreting is an interesting field, which opens doors to situations and people one would never meet or encounter normally. It is a field where one can continue growing and studying. Phonetics is important because sounds are a vital part of our daily lives, and essential for communication. Interpreting activities at Meikai include interpreting contests, participating in interpreting guide tours, training, interpreting camps, etc. In Discussion and Debate, we learn to discuss and debate topics from a wide range of fields. Discussion and Debate practice makes it possible to talk more freely impromptu about issues that affect our daily lives. I look forward to seeing you in class or at my interpreting club.
