

2026年度 英語試験問題 A日程

注 意 事 項

- 1 試験開始の合図があるまで、この問題冊子の中を見てはいけません。
- 2 試験問題は12ページあります。
- 3 試験中に問題冊子の印刷不鮮明、ページの落丁・乱丁および解答用紙の汚れ等に気付いた場合は、手を挙げて監督者に知らせなさい。
- 4 監督者の指示に従って、解答用紙の受験番号および氏名欄に正しく記入し、さらに、受験番号をマークしなさい。
- 5 受験番号が正しくマークされていない場合は、採点できないことがあります。
- 6 解答は、解答用紙の解答欄にマークしなさい。例えば

20

 と表示のある問いに対して3と解答する場合は、次の(例)のように解答番号20の解答欄の3にマークしなさい。

(例)

解答 番号	解 答 欄									
	1	2	3	4	5	6	7	8	9	0
20	①	②	●	④	⑤	⑥	⑦	⑧	⑨	⑩

- 7 問題冊子の余白等は適宜利用してよいが、どのページも切り離してはいけません。
- 8 試験終了後、問題冊子は持ち帰ってはいけません。

英 語

A. 各文(1.~10.)を読み、()に入る最も適切な語句を①~④から一つ選びなさい。

1. The students started () for the test right after lunch because it was very important. 1

- ① studies ② studied ③ study ④ studying

2. Our train () to arrive at the terminal on platform 10 in three hours. 2

- ① expects ② is expected ③ is expecting ④ will expect

3. Ronald () more if he had more free time this year. 3

- ① can travel ② has traveled ③ travels ④ would travel

4. You () not touch the artwork in the museum to avoid damaging it. 4

- ① are ② have ③ need ④ must

5. () they visit Central Park during their trip to New York last summer? 5

- ① Did ② Do ③ Had ④ Have

6. The new students () on campus next week, so please prepare a warm welcome. 6

- ① arrived ② can arrive ③ have arrived ④ will arrive

7. There are () apples left in the basket, so we can make a pie with them. 7

- ① a few ② a little ③ less ④ none of

8. All of the teachers help students () have questions about their homework or projects. 8

- ① what ② when ③ who ④ why

9. The team tried their best, but not all of the plans went () expected last weekend. 9

- ① as ② by ③ than ④ to

10. Nadia feels much more confident now () she practices speaking English every day. 10

- ① because ② due to ③ otherwise ④ so that

B. 各文 (11. ~ 20.) について、日本語の内容に合うように①~⑤の語句を並べかえ、空所を補いなさい。解答は (11) ~ (20) に入れる語句の番号のみを答えなさい。ただし、文頭に使用すべき語も小文字で示しています。

11. その最新ゲーム機を買うのに税込で 50,000 円かかった。 11

The latest game console () (11) () () () tax.

- ① 50,000 ② cost ③ including ④ me ⑤ yen

12. そのお店は白い壁を明るいピンク色に塗り替えた。 12

The store () () () (12) () pink.

- ① walls ② its ③ white ④ bright ⑤ painted

13. お昼に電話をかけたとき、どこにいたの? 13

() () () (13) () called at noon?

- ① I ② you ③ were ④ where ⑤ when

14. 最終的には、どちらが君の好みなのかという問題だよ。 14
 After all, it is a ()()(14)()().
 ① you ② prefer ③ of ④ question ⑤ which
15. 屋根を修理している大工はとても腕がいい。 15
 The ()(15)()()() very skilled.
 ① roof ② carpenter ③ is ④ repairing ⑤ the
16. アリストテレスの引用が彼の議論の中心だった。 16
 The quote (16)()()()() his argument.
 ① to ② from ③ was ④ Aristotle ⑤ central
17. 頼むよ、小さな問題で無駄にしている時間はないんだ。 17
 Please, we have ()()()()(17) little problems.
 ① on ② time ③ to ④ no ⑤ waste
18. まだお名前を呼ばれていない方はいらっしゃいますか? 18
 Is ()()()(18)() haven't called?
 ① whose ② there ③ name ④ I ⑤ anyone
19. 今でも多くの人は紙の本が電子書籍よりも優れていると考えている。 19
 Many people still believe that ()()()(19)()
 ebooks.
 ① books ② to ③ superior ④ are ⑤ printed
20. 絵画の美しさは細部にこそ宿るものだ。 20
 It ()(20)()()() the beauty of paintings lies.
 ① details ② that ③ the ④ is ⑤ in

C. 各文 (21. ~ 30.) を読み, () に入る最も適切なものを①~④から一つ選びなさい。

21. Albert Einstein, who won the Nobel Prize in physics in 1921, was also an outstanding (), creating refrigerators and cameras, among other things.

21

① inventor ② programmer ③ publisher ④ illustrator

22. When students () a challenging task, they often feel a great sense of satisfaction.

22

① astonish ② accompany ③ accomplish ④ appeal

23. Third-year and fourth-year students need to prepare suits that are () for internships and job-hunting.

23

① annual ② alternative ③ appropriate ④ absolute

24. I () forgot about my friend's birthday and didn't even prepare a birthday card or gift.

24

① freely ② traditionally ③ gradually ④ completely

25. In order to receive medicine, a patient must get a(n) () from a doctor.

25

① operation ② prescription ③ revolution ④ prevention

26. My favorite musician is so talented. Not only does she () all of her own music, but she also writes all of her lyrics.

26

① compose ② compensate ③ commute ④ compete

27. After hearing your outstanding presentation, we have decided to () your proposal. 27

- ① get along with ② go after ③ get by ④ go along with

28. Maria speaks English, French, and Japanese fluently. (), she is an amazing tennis player. 28

- ① Likewise ② Moreover ③ However ④ Therefore

29. That actor looks very young, but (), he is over 60 years old. 29

- ① in general ② in particular ③ in reality ④ in vain

30. A: Thank you for giving me a ride to the airport. Unfortunately, I'm not ready yet ...

B: (). We have plenty of time. 30

- ① That's too bad ② I can't help it
③ No worries ④ Not at all

D. 英文を読み、下の問い (31. ~ 35.) の答えとして最も適切なものを①~④から一つ選びなさい。

It is well-known that regular exercise is important for health, but given the busy schedules people have, when is the best time to exercise? Is it the morning or in the evening? Both morning exercise and evening exercise have good points and bad points.

Are you a morning person? If so, morning exercise might be right for you. There are many benefits of working out in the morning. Completing a workout before the start of a busy day may make a person feel positive as exercise releases endorphins, which are natural hormones that reduce pain, lower stress levels, improve mood, and give us a sense of well-being. If a person is busy with work, family activities, or social events at night, some exercise in the morning is a good option. One researcher points out that exercise in the morning might lower blood pressure, improve weight loss, help control appetite and assist people in sleeping better. It is also said that exercising in the morning may increase a person's productivity and focus throughout the day. Another good point is that it might be easier to create a routine of regular exercise if it is done in the morning. There are some disadvantages to morning exercise, though. If a person doesn't like cold weather, it may take longer to warm up the body. Time may also be more limited in the morning and you may also experience sore muscles and lower energy levels.

For night owls, there are pros to the evening workout. Muscle function, endurance, and strength are better in the afternoon and at night. In other words, the body's overall performance is better in the evening compared to the morning. Oxygen is an important fuel for training and in the evening, the body can deliver it into the muscles more efficiently. Body temperature, flexibility, and strength all seem to be better in the late afternoon and evening, which is important for athletic performance. Evening exercise can relieve stress after a long day, and you can exercise with friends or in a group fitness

class in the evenings. There is also less feeling of being rushed than in the morning. At the same time, there are some disadvantages of working out in the evening. For some people, exercising in the evening may make it difficult to sleep at night. So, it is best not to exercise less than an hour before bedtime. Also, if you are a person who is busy working or studying or has many family duties, you might experience reduced energy levels.

In conclusion, exercising in the morning or in the evening both have advantages and disadvantages. People may think of themselves as morning people or evening people, but study, work, and family can affect one's daily routine. Therefore, the most important point is that people find what works best for them.

31. According to the article, an advantage of morning exercise is ... 31

- ① an increase in overall exercise performance.
- ② an increase in focus throughout the day.
- ③ more chances to exercise with friends.
- ④ more oxygen intake.

32. According to the article, an advantage of evening exercise is ... 32

- ① increased productivity.
- ② increased muscle strength and endurance.
- ③ it is easier to fall asleep.
- ④ it is easier to schedule family or study activities.

33. The writer would agree that ... 33

- ① morning exercise may reduce your ability to sleep.
- ② evening exercise may reduce your ability to sleep.
- ③ time to exercise in the evening may be limited.
- ④ it takes longer to warm up the body in the evening.

34. Which of the following is TRUE?

34

- ① Morning exercise is better than evening exercise.
- ② Evening exercise is better than morning exercise.
- ③ Morning exercise and evening exercise have similar effects.
- ④ Morning exercise and evening exercise have good and bad points.

35. The best title for this article is ...

35

- ① The Benefits of Morning Exercise.
- ② A Case for Night Owls.
- ③ An Early Bird Catches the Worm.
- ④ When is the Best Time to Work Out?

E. 英文を読み、その文意にそって から に入る最も適切なものを
①～④から一つ選びなさい。

In 1882, the world's first coal-powered electric station was built in London. It made electricity by using steam to spin a machine, a method still used for about 70% of the world's power today. The world's growing demand for electricity needs new power plants, but nuclear energy is unpopular, wind and solar don't work all the time, and fossil fuels cause climate change. Some countries use geothermal power, which uses the earth's heat, but many people worry it could damage local hot springs. Also, most systems don't make enough heat for big power plants. That's why some experts are excited about *deep* geothermal power, which could work almost anywhere. If it succeeds, it may be .

One company, Quaise, believes this is possible. Their plan is to drill very deep into the ground, about 20,000 meters down, where the temperature is over 400°C. Water heated to that level can make much more electricity than normal geothermal water. However, it's extremely hard to drill that deep with normal machines. Quaise wants to use a gyrotron, a special kind of high-energy tool that can melt the rock and turn the sides of the hole into glass. This helps keep the hole safe and open.

This plan is still experimental. No one has ever drilled a working hole that deep before. Engineers must solve many problems, like how to remove melted rock and how to keep the hole from breaking. Experts say that the company may face delays, because drilling this deep is .

If Quaise can succeed, the results could be huge. They could place these deep wells next to gas, coal, or nuclear plants and reuse the turbines at those plants to make clean power. This would mean more energy and less need for dangerous or dirty fuels. Also, the Earth's heat will not run out anytime soon. Scientists believe that this kind of

energy could for millions of years without problems.

Another benefit is that deep geothermal power can be used in many places around the world. It doesn't depend on sunlight, wind, or fuel. This means that even countries without oil or solar energy can produce clean electricity. For this reason, some say that geothermal power could in many nations in the future.

If this technology succeeds, it may offer a clean and powerful energy source for the future. But first, scientists and engineers will need to solve the technical problems. , time and hard work will show whether deep geothermal becomes a global solution.

36. ① an old and slow method
 ② too expensive for most uses
 ③ a clean and endless solution
 ④ the same as fossil fuels
37. ① easy with the right drill
 ② impossible in cold places
 ③ common in many countries
 ④ more difficult than it sounds
38. ① stop working after ten years
 ② power human civilization
 ③ warm nearby hot springs
 ④ damage the Earth's core

39. ① replace fossil fuels
② cause new climate problems
③ only work in deserts
④ make drilling slower

39

40. ① After a short break
② At the beginning
③ In the end
④ For example

40
