Questions:

1. According to the author, even those who are most opposed to the English language will find themselves having to use it. Why?
2. What does the author mean by saying that English may be stable in its world status, but not in its linguistic character?
3. Why is language an immensely democratizing institution, according to the author?
4. In what way can people from such new countries as Ghana and Nigeria continue with English without accepting the colonial past?

Questions:

1. What is deixis? Referring to utterance [1], explain this technical term from Greek.
2. Deictic expressions are classified into two basic categories. What are they?
3. Why are simple deictic expressions such as 'I' and 'you' problematic for language-learning children?
4. According to the author, deixis is at work in one of the most common structural distinctions made in English. What is the distinction? In what way is deixis at work in this structural distinction?
